EMPLOYMENT

Software Engineer   **Supy**   **03/2022 – Present**
- Implemented bulk data upload using Google Sheets API.
- Integrated the company's product with POS systems.
- Handled different time-zones issues and added RBAC/ABAC authorization.
- Contributed to all company's microservices.

Frontend Developer   **Nestech**   **09/2021 – 02/2022**
- Worked directly with UI/UX designer and converted the designs she gave me to fast front-end web applications.
- Engaged in daily scrum meetings with our five members team to optimize the development process.
- Finished 5+ web applications with a responsive mobile-first approach from concept to deployment.

Frontend Developer   **BadinanSoft**   **04/2021 – 09/2021**
- Established testing and modular coding development environment for company projects.
- Enhanced legacy projects UX by implementing the right technologies and fixing UI bugs.
- Helped the project manager to organize the team's tasks using Jira software.

Frontend Developer   **Unifi Solutions**   **11/2020 – 04/2021**
- Led the development process of the "BACT" educational software system.
- Automated the injecting of state and routing modules using JS scripts.
- Maintained scalable system-wide components that were used in the IoT web application.

Junior Frontend Developer   **Zeour**   **09/2019 – 11/2020**
- Built over 3 web applications for Queue Management System.
- Reduced load time by over 60% by dropping jQuery UI and re-writing all CSS from scratch.
- Implemented visual designs that are accessible and user-friendly.

EDUCATION

Latakia, Syria   **Tishreen University**   **09/2016 – 09/2021**
- Bachelor of Software Engineering. GPA: 3.4.
